Art Unit: 2857

1. As was indicated in paragraph 2 of the prior Office action, formal drawings of all the figures are required and that also correct the formal discrepancies indicated on the PTO-948 form that was attached to the prior Office action. The Examiner also notes that in accordance with 37 C.F.R. 1.121, the replacement sheet drawings must be identified in the top margin as "Replacement Sheet". Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 10 is rejected under 35 U.S.C. 102(a) or 102(b) as being anticipated by Rasmussen (5,884,072).

As per claim 10, Rasmussen (figures 11, 12, 14-16, col. 16 lines 9-13, col. 25 lines 49-51) discloses "a plurality of control units for controlling the parts". Rasmussen (col. 66 lines 12-30) discloses the control station as described in lines 4-6 of the claim. Rasmussen (Figures 12, 14-16, col. 35 lines 55-67, col. 36 lines 1, 2, 53-60, col. 51 lines 55-64, col. 55 lines 51-63) discloses "at least one of the plurality of control units...determined assessment to the control station".

4. Claims 6, 9 and 11-13 are allowed.

5. Applicant's arguments filed 9-7-04 have been fully considered but they are not persuasive with respect to claim 10. The Applicant's arguments on page 4 of the reply submit that claim 10 has similar language to allowed claim 11 and should also be allowed. However, a comparison of claim 10 to claim 11, clearly shows that there is a difference in the scope of these two claims. In addition, the Applicant with respect to claim 10, did not present arguments with respect to the applied Rasmussen reference (see 37 C.F.R. 1.111).

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

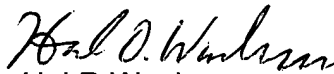

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
